# AI Email Assistant

Paritosh Jha, Vyomsarit Singh, Jonathan Cheng,  
Tanish Kumar, Aashay Parab, Alexander Ward

# Out of **1.3 billion** English speakers worldwide...

**75%**

have learned English  
as a second  
language...

and only **25%**  
are native speakers

Source: Babble

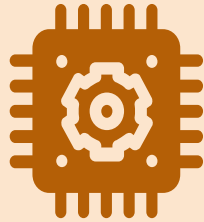

“Ready or not, **English** is now the global language of business ... multinational companies are **mandating** English as the common corporate language”

—Harvard Business Review

# 5 - 7 years to achieve advanced fluency

Employers do not want to wait that long

# Our Solution: Aziksa Email Writing Assistant App

**Adjustable for any  
professional context**

**Utilizes Large Language Model  
to generate emails**

**Effortless and stress-free  
user experience**

**Empowering speakers to craft  
professional emails with ease**

with hallucinations or  
abusive content

fast detection avoids  
confusion on user end

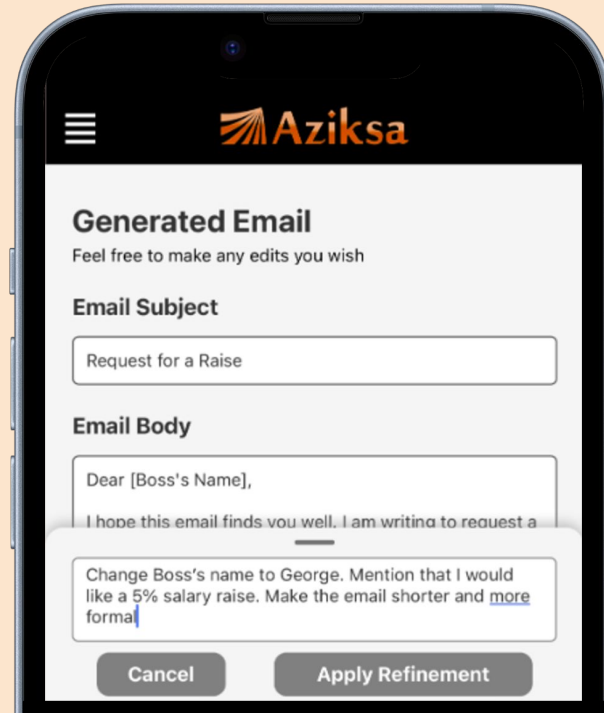

## Response Refinement

customize your email to  
your liking

eliminates  
hallucinations

mold response to your  
personal style

The image shows a smartphone screen displaying the Aziksa app interface. At the top, there is a hamburger menu icon and the Aziksa logo. The main content area is titled "Generated Email" with a subtitle "Feel free to make any edits you wish". Below this, there are two sections: "Email Subject" and "Email Body". The "Email Subject" section has a text input field containing "Request for a Raise". The "Email Body" section has a text input field containing "Dear [Boss's Name],  
I hope this email finds you well. I am writing to request a". Below the "Email Body" section, there is a refinement prompt: "Change Boss's name to George. Mention that I would like a 5% salary raise. Make the email shorter and more formal". At the bottom of the screen, there are two buttons: "Cancel" and "Apply Refinement".
